

Zoom link to workshop and instructions to use zoom

Our Zoom space

Our workshop will take place at: <https://apc-org.zoom.us/j/87136668043>

Tips for participation in Zoom sessions

- **Update your [Zoom client](#)** to the latest version. The zoom app takes 5 minutes to install, so please set it up before the sessions.
- Please **join the sessions before they start (we have 60 minutes for that)**, so we can assist you if you experience any issue.
- Please **use your real name or nickname**, so we can know who you are and let you in. You can **change your name after you have joined**.
- **Please use headphones with microphone rather bluetooth headphones where possible.**
- **Please mute your microphone** when entering a session and **unmute only when you want to speak**.
- If you **need a break** during the sessions, **take it**.

How to use zoom

Join the workshop session by opening [the link](#) in your browser, a client or an app. You will be redirected to the correct zoom room with the waiting room. When the host will add you to the meeting you will be able to see the main screen.

zoom-main-window.png

Configure Audio

If your audio is not working, please **check your settings**.

For **Audio** click on the **up arrow next to Unmute/Mute button** and check if your Microphone and Speaker have been correctly configured.

zoom-audio-settings-button.png

Configure Video

If your video is not working when you click Start Video, please **check your settings**.

Click on the up arrow next to Start Video and see if Camera is selected.

[zoom-video-sharing-button.png](#)

Image not found or type unknown

If you would like to examine settings in more detail, click on the last option **Video Settings...** and the following window will open.

zoom-video-settings.png

Image not found or type unknown

Here you can define how your video should be presented and we recommend you select the option **Hide Non-video Participants** so that you will be able to see only the videos of participants who have their cameras enabled.

Chat

Zoom enables you to participate in **public chat** and also **send private messages** to specific participants. To send a private message select the participant in the dropdown field which is by default set to Everyone (for public chat).

If you select the wrong window you can always stop sharing and then start sharing the intended one.

Language Interpretation (Translation)

Sessions of this workshop in the Latin America timezone (Time Zone 2) will have speakers in both Spanish as well as English. These sessions will have live interpretation from Spanish to English and vice-versa.

To ensure the meeting flows smoothly for you and for others, please ensure you enable language interpretation and choose your spoken language at the start of each session.

How to enable language interpretation as a participant

When an interpreter is assigned by the host of the meeting, a new “Interpretation” icon and a pop-up message saying that new translation possibility is available will appear

1. In your meeting/webinar controls, click **Interpretation** . Image not found or type unknown
2. Click the language that you would like to hear.
3. (Optional) To hear the interpreted language only, click **Mute Original Audio**.

By default, you will hear the selected language at 80% volume and the original Audio at 20% volume. If you would like to mute/unmute the original audio, click on the corresponding option in the language button.

Revision #7
